Advanced Reporting

Business Need	Advanced Reporting	 
Industry	Non-specific	
Product	Advanced GL Budgets for EXO Business	
Provider	Simcock IT Consulting	
Available	Australia & New Zealand	
Website	http://www.simcockit.com.au/resources.html#CustomSoftware	
Brief description	Simcock IT Consulting's Advanced GL Budgets for EXO Business is designed to create, edit, import and export GL budgets quickly and easily.	
Main Benefits	<p>Fully integrated with EXO Business and is designed to quickly deal with GL budgeting tasks. Quickly import and export direct to excel in seconds. Create new budgets in seconds. Advanced GL Budgets has a great interface for editing budgets on screen quickly and easily in a tabular format by branch, account no, sub account as rows and periods as columns. Columns can be filtered and searched on for easy editing.</p> <ul style="list-style-type: none"> • Import from and Export Budgets Directly to Excel. • Edit budgets in tabular format on screen quickly. • Ability to spread year values and populate values to all periods for an account. • Built to handle large data sets, lost(s) of branches accounts and sub account combos. 	
Customer Suitability	Advanced GL Budgets for EXO Business is suited to all businesses but if you are having problems with speed in dealing with budget tasks this is the answer.	
Business Need	Advanced Reporting	
Industry	Non-specific	
Product	Cellophane	
Provider	PC Dev Limited	
Available	Australia & New Zealand	
Website	http://www.pcdev.co.nz/cellophane	
Brief description	Cellophane is a Clarity Report wrapper program that allows a user to do scheduled and/or bulk, customised Clarity report runs of any Clarity report or form.	
Main Benefits	<p>Key scenarios for the use of Cellophane:</p> <ul style="list-style-type: none"> • Weekly staff sales reports by staff member emailed automatically; • Month-end management reports created on the last day of the month; • Personalised order status reports sent out to each customer half-hourly or at the end of the day; • Send out statements or invoices to customers – added flexibility than core functionality; • Limited version available free of charge. 	
Customer Suitability	Any customers with bulk or scheduled reporting requirements (either internal or external)	

Business Need	Advanced Reporting	 
Industry	Non-specific	
Product	EBS Reports	
Provider	Exobiz Services	
Available	Australia & New Zealand	
Website	http://exobiz.com.au/product.php?itemid=3	
Brief description	EBS Reports is a module that provides a selection of popular style reports that can be exported directly to Microsoft Excel without the need for Clarity.	
Main Benefits	<p>EBS Reports does not replace but enhances your reporting ability alongside Clarity. EBS Reports will store specific settings for a report that the end user chooses to setup, lending itself to one-time configuration for a specific report and using it many times in the future.</p> <ul style="list-style-type: none"> • Advanced Sales Reports • Advanced Stock Reports • Advanced Customer Reports • Advanced Jobcosting Reports 	
Customer Suitability	Any business that wants reporting	

Business Need	Advanced Reporting	 <i>leave it to us</i> 
Industry	Non-specific	
Product	EziView	
Provider	Focus Technology Group (NZ) Limited	
Available	Australia & New Zealand	
Website	http://www.exosoft.net.nz	
Brief description	EziView is an end user data entry, reporting and graphing tool.	
Main Benefits	<p>EziView is an easy to use, yet powerful end user data entry, reporting and graphing tool. It facilitates the creation of custom data grids to attach to any table or view in any database. It has been built to be easily configurable and manageable by end-users.</p> <ul style="list-style-type: none"> • Simultaneously connect to and report from, multiple databases or sources • Add and edit data from the grid • Add and save grid grouping and filters • Print and save WYSIWYG (What You See IS What You Get) Reports • Create and save graphs with the ability to re-sort data and reprint • Launch EziView grids from other grids, applications or shortcuts • Create your own custom fields within the grids. This may be as simple as adding two fields together, or a complex mathematical or SQL based calculation • Import and export grid layouts • Add conditional formatting based on the grid data • Create grid pivot tables for fast flexible reporting <ul style="list-style-type: none"> ○ All grids, charts and reports exportable to common file formats 	
Customer Suitability	Solution is suitable for all SMEs	

Business Need	Advanced Reporting	
Industry	Non-specific	
Product	LARF for EXO Business	
Provider	Very Impressive Software Ltd	
Available	Australia & New Zealand	
Website	http://veryimpressivesoftware.co.nz/	
Brief description	LARF (Local Ad Hoc Reporting Function) is an ‘on the fly’ reporting tool for generating SQL queries from a user friendly interface and building reports.	
Main Benefits	<p>LARF is an tool that has fields and tables pre-linked so you can easy and quickly run queries of your database, and build reports. These queries and reports can be saved and re-run as and when you please.</p> <ul style="list-style-type: none"> • Provides an easy to use interface for getting data • Is read only, no updates to data • Presents user with understandable field names • Great at listing data 	
Customer Suitability	Any sized customer who wants to be able to create queries or write reports using their data without having to be gurus in MYOB Clarity or SQL Server.	

Asset Management

Business Need	Asset Management	
Industry	Hiring/Rental	
Product	4Hire	
Provider	Horizon Business Systems	
Available	Australia & New Zealand	
Website	www.horizonbs.com.au/4hire.html	
Brief description	4Hire is a rental/hire management tool that fully integrates to MYOB EXO Business.	
Main Benefits	<p>Hiring functionality includes; hire contracts, price lists, global/debtor downtimes, hiring schedule, linking to MYOB EXO Business for invoicing/debtors/stock locations, linking to MYOB EXO Job Costing for hire related jobs (such as commissioning), linking to MYOB EXO Fixed Assets (depreciation).</p> <ul style="list-style-type: none"> • Full integration to MYOB EXO Business: no more double handing of data • Usage of MYOB EXO Business branches/stock locations • Batching of transactions to MYOB EXO Business 	
Customer Suitability	<p>Existing interest and users in the following areas of rental;</p> <ul style="list-style-type: none"> • Surveying Equipment • Radio Equipment • Light Industrial Hire 	

Business Need	Asset Management	
Industry	Non specific	
Product	VI Assets	
Provider	Very Impressive Software Ltd	
Available	Australia & New Zealand	
Website	http://veryimpressivesoftware.co.nz/products/very-impressive-assets/	
Brief description	Family of software packages that simplify the complexities of asset management with a range of flexible, easy to use, and comprehensive tools suitable for business of all sizes.	
Main Benefits	<p>There are currently two versions of Very Impressive Assets available, Lite and Standard. The Standard version has been enhanced from WinFix, the product we launched in 1992.</p> <ul style="list-style-type: none"> • Easy to use • Has a hierarchy of locations for reporting • 'Drag and Drop' ability for asset location transfers • Includes reports tailored for New Zealand tax purposes • Fully integrated with MYOB EXO Business 	
Customer Suitability	Any sized business that would like an easy to use application for all their asset management needs.	

Business/Financial Planning and Forecasting

Product	General Ledger Consolidation	
Provider	Zac Software Ltd.	
Available	Australia & New Zealand	
Website	http://www.zac.co.nz/index.htm	
Brief description	This will copy all GL transactions from two or more EXO Business companies into a separate company and display each company as a branch.	
Main Benefits	<ul style="list-style-type: none"> • One minute to consolidate many companies. • Moves all GL transactions • Each subsidiary treated as branch. • Can use inbuilt GL report writer for consolidated company 	
Customer Suitability	Any EXO Business user who needs to consolidate multiple company GL databases	

Business Need	Business/Financial Planning and Forecasting	 <p>GlobalBizpro Better software. Better business.</p> 
Industry	Non-specific	
Product	GlobalBizpro Sales Budgets	
Provider	GlobalBizpro Ltd	
Available	Australia & New Zealand	
Website	http://www.globalbizpro.co.nz/developments/default.aspx	
Brief description	Creates sales budgets by customer, customer groups, by sales rep or areas. Presents sales history by year, month, customer and rep and allows plus or minus % factoring	
Main Benefits	<ul style="list-style-type: none"> • See the actual sales history and create the future budget in minutes in fast table view • Broad brush percentage factor makes a new budget in seconds by increasing by a mark-up on last year • Fast sort by customer, by month to see each customer’s performance, showing trends and buying behaviour • Set a specific budget by rep (or area) - detailed budget created based on rep selection, viewing historical and current sales to assist process • View actual year to date figures alongside budget and enter forecast figures as you go to see variances to budget and re-cast likely results • Print or PDF your budgets —from specific customer budgets, by rep or area, right through to entire company budgets. Each party can receive ‘their’ budget 	
Customer Suitability	For businesses that wish to create sales budgets by customer or customer groups, reps or areas—set to each month of the year	

Computer Management and Data Backup

Business Need	Computer Management and Data Backup	
Industry	Non-specific	
Product	Remote Console	
Provider	Focus Technology Group (NZ) Limited	
Available	Australia & New Zealand	
Website	http://www.exosoft.net.nz	
Brief description	Remote Console is an application that allows an organisation to connect remotely to the servers, desktops, routers and firewalls in their care	
Main Benefits	<ul style="list-style-type: none"> • Remote Console is an application that allows an organisation to connect remotely to the servers, desktops, routers and firewalls in their care. It manages the connections within the database that the organisation uses. • Centralises management of customer remote connection details • Stores RDP, Citrix, Dameware, Team Viewer, RAdmin, VNC, PC anywhere connections in one central database. • Preloads VPN connections • Offline mode available for Laptops while out of the office. 	
Customer Suitability	Organisations that manage remote IT accessibility	

CRM/Contact Management

Business Need	CRM/Contact Management	 <i>leave it to us</i>
Industry	Non-specific	
Product	Mailout	
Provider	Focus Technology Group (NZ) Limited	
Available	Australia & New Zealand	
Website	http://www.exosoft.net.nz	
Brief description	Exosoft Mailout is for building and sending email campaigns to large groups of contacts.	
Main Benefits	<p>Exosoft Mailout manages the sending of large quantities of individual emails. It also provides the ability to filter contacts by name, addresses, companies and categories. It sends the emails from within Outlook, but only one at a time thereby avoiding spam issues. It comes with its own embedded HTML editor and supports templates, custom signatures and merge fields.</p> <ul style="list-style-type: none"> • Sends each email individually, therefore no limit on the number it can send • Provides HTML editor to build HTML emails • Can embed key name fields for email personalisation • Can use Outlook contacts as the sending list • Ability to embed images into an email • Manage multiple mail profiles 	
Customer Suitability	This is a great marketing/newsletter tool for those organisations that wish to manage their own distributions. Mailout ideally accompanies ExoSync for emailing from MYOB EXO contacts, utilising filtering by Marketing Classes, Debtor Groups and or Sales People against the individual customers.	

Business Need	CRM/Contact Management	 <i>leave it to us</i>
Industry	Non-specific	
Product	ExoSync	
Provider	Focus Technology Group (NZ) Limited	
Available	Australia & New Zealand	
Website	http://www.exosoft.net.nz	
Brief description	ExoSync updates information from MYOB EXO Business into multiple Outlook contact folders, allowing filtering of contact information for different staff.	
Main Benefits	<p>ExoSync pushes contact information from the MYOB EXO Business Contacts, Debtors and Creditors to your Microsoft Outlook contacts on an automated scheduled basis. In doing so it uses filters and parameters to send additional information and restrict the amount of contacts you may wish to have.</p> <ul style="list-style-type: none"> • Multiple Synchronisations • Customise Synchronised Content • Synchronises one set of EXO Contacts to multiple Outlook Users 	
Customer Suitability	SME's using Microsoft Outlook & EXO Business	

Business Need	CRM/Contact Management	 leave it to us
Industry	Non-specific	
Product	Phone Messenger	
Provider	Focus Technology Group (NZ) Limited	
Available	Australia & New Zealand	
Website	http://www.exosoft.net.nz	
Brief description	Phone Messenger is an email application that sends emails using the contact details from MYOB EXO Business Debtor & Creditor Contacts	
Main Benefits	<ul style="list-style-type: none"> • Phone Messenger is an email application that sends emails with contact details from MYOB EXO Business Debtor & Creditor Contacts. It allows a telephonist to look up clients and send a contact email picking up contact details from MYOB EXO Business. • Uses contact details from MYOB EXO • Choose to attach credit information, notes and history notes 	
Customer Suitability	Ideal internal solution to quickly complete common customer questions	

Data Integration/Synchronisation

Business Need	Data Integration /Synchronisation	
Industry	Non-specific	
Product	AutoXML	
Provider	PC Dev Limited	
Available	Australia & New Zealand	
Website	http://www.pcdev.co.nz/cellophane	
Brief description	AutoXML is a simple program designed to facilitate import and export of XML data between a database either a local folder or FTP server.	
Main Benefits	<p>AutoXML is a simple interface between a SQL database and import/export folders either locally or on an FTP server. The program is designed to run unattended. For each application a SQL query will need to be formed as a stored procedure on the database. AutoXML then uses the inputs and outputs of the stored procedures to import and export XML data. FTP connections are set to retry in case of failure and notifications of errors are logged and may be sent to an administrator.</p> <ul style="list-style-type: none"> • Intended for scheduled setup - no user interaction required • Creates well-formed XML document from SQL XML queries • Upload/download via FTP with retries • Supports multiple upload/download profiles 	
Customer Suitability	Any customer requiring offsite XML uploads	

Business Need	Data Integration /Synchronisation	 
Industry	Non-specific	
Product	Bizpro ExoLink	
Provider	Bizpro	
Available	Australia & New Zealand	
Website	http://bizpro.com.au/	
Brief description	ExoLink provides integration between MYOB EXO Business and MYOB RetailManager POS	
Main Benefits	<ul style="list-style-type: none"> • Centralised Reporting across multiple retail stores running independently • Centralised inventory management and visibility of stock from head office • Centralised stock ordering and distribution is possible • Scalable solution capable of handling large numbers of stores and transaction volumes • Stores run individual instances of RetailManager which means the POS can work offline and data synchronisation occurs on a schedule. 	
Customer Suitability	Suitable for customers that require offline POS but still want info transferring back and forth to MYOB EXO Business, also great for Franchise groups.	

Business Need	CRM/Contact Management	
Industry	Non-specific	
Product	CRMConnect	
Provider	Kruger & Kings-Lynne (KKL)	
Available	Australia & New Zealand	
Website	http://www.kkl.com.au/crmconnect-exonet-integration-with-microsoft-crm/	
Brief description	CRMConnect synchronises the valuable information in your MYOB EXO Business accounting system with Microsoft CRM	
Main Benefits	<ul style="list-style-type: none"> • Create, delete and update Accounts and Contacts in either CRM or MYOB EXO Business. Changes will be reflected. • All details such as relationships between entities, head office, postal and email addresses etc, are synchronised • Synchronize stock items, quotes, orders and invoices from MYOB EXO Business to CRM • Generate quotes in CRM • Ability to synchronise custom tables and columns • Together with Microsoft CRM create very specific marketing lists • Together with Microsoft CRM unlock targeted sales campaigns complete with measurement tools from CRM to tie in with customer data from MYOB EXO Business 	
Customer Suitability	Solution is applicable to all SMEs that use Microsoft CRM	

Business Need	Data Synchronisation (Payroll)	 GlobalBizpro <small>Better software. Better business.</small> 
Industry	Non-specific	
Product	EXO to Comacc Integrator	
Provider	GlobalBizpro Ltd	
Available	Australia & New Zealand	
Website	http://www.globalbizpro.co.nz/developments/default.aspx	
Brief description	For businesses that use MYOB EXO Job Costing Module needing timesheet data (including staff allowance detail) imported to Comacc/EXO Payroll electronically and automatically. In Real-Time, batched or as required, the vital staff time & Job re-cords go straight to Comacc to quickly and accurately process employees' pay.	
Main Benefits	<ul style="list-style-type: none"> • One source for all Job Management means one point of entry, with staff timesheet entries arriving into Comacc as though punched manually • Accurate pay calculations by employee, by Job providing accuracy and speed in the process. Doubling handling saves time and costly errors • You choose the level of detail to suit your needs and Payroll functions • Intelligence that ensures the data is always clean, correct and meets the integrity levels to avoid errors 	
Customer Suitability	For businesses that use MYOB EXO Job Costing Module & Comacc/EXO Payroll	

Business Need	Data Synchronisation	
Industry	Non-specific	
Product	ExoPostalAddCheck	
Provider	Very Impressive Software Ltd	
Available	New Zealand	
Website	http://veryimpressivesoftware.co.nz/products/other-products/post-code-checker/	
Brief description	A module that checks the Debtors Account postal address (in NZ) for a match on the Post Office PAF file. Allowing you to get SendRight certification and hence cheaper postage.	
Main Benefits	<ul style="list-style-type: none"> • Integrated with MYOB EXO Business database, ExoPostAddCheck validates addresses against the Post Office Delivery Point Database from NZ Post, to ensure correct address detail is used • Checked Postal address • Updates post codes automatically • Prepares database for SendRight certification • Reduced Postage Costs 	
Customer Suitability	Any sized business wanting to get SendRight certification	

Business Need	Inventory Management	
Industry	Non-specific	
Product	EziSync	
Provider	Focus Technology Group (NZ) Limited	
Available	Australia & New Zealand	
Website	http://www.exosoft.net.nz	
Brief description	EziSync is an EDI tool for synchronising data and performing operations between MS SQL databases and or files.	
Main Benefits	<p>EziSync is an EDI tool for synchronising data between MS SQL databases and/or files. It can run scheduled events or be run from an executable link. It can also be scheduled to perform multiple steps including SQL scripting, SQL backups, file deletions, emailing of generated files etc. This is a great tool for uploading CSV or Excel files into a database, it can also ne be used to schedule the export of a file and email it to someone. There is a server and client PC version.</p> <ul style="list-style-type: none"> • Synchronise data between two databases or a database and files. • Schedule synchronisations to occur or run them manually from a shortcut. • Perform backups, SQL script commands as well. • Allows file looping. • Supports XML. 	
Customer Suitability	Solution is suitable for all SMEs	

Business Need	Integration, EDI, Middleware	
Industry	Non-specific	
Product	Flow Software	
Provider	Flow Software Pty Ltd	
Available	Australia & New Zealand	
Website	http://www.flowsoftware.com.au	
Brief description	Flow software is used for data integration and EDI transactions. Flow can transfer and transform data between systems within a business and can move data between external trading partners.	
Main Benefits	<ul style="list-style-type: none"> • Automating manual data entry functions • EDI with business partners • Integration of business applications • Integration of hosted (SaaS) and in-house applications e.g. e-commerce website and accounting system • Synchronising data between multiple systems • Automatic generation and delivery of company documents e.g. invoices, statements, reports, picking slips 	
Customer Suitability	Any customer that needs to reduce manual data entry, integrate their systems &/or needs to be able to do EDI with their suppliers or customers.	

Business Need	Data Synchronisation	
Industry	Non-specific	
Product	GlobalBizpro Connect	
Provider	GlobalBizpro Ltd	
Available	Australia & New Zealand	
Website	http://www.globalbizpro.co.nz/developments/default.aspx	
Brief description	Electronic data transfer of data - to and from MYOB EXO Business	
Main Benefits	<ul style="list-style-type: none"> • Stop hand punching records and transactions from one data source into EXO • Ideal for automatic receipt [to EXO] of sales, orders, payments etc from external sources such as websites, PDA's, CRM etc • Records automatically updated on arrival. Saves hours of labour re-working and entering data updates • Intelligence that ensures the data is always clean, correct and meets the integrity levels to avoid errors 	
Customer Suitability	For businesses that have multiple data sources and want to move records and transactional data electronically into MYOB EXO Business or transfer it out to other programs or files	

<p>Business Need</p> <p>Industry</p> <p>Product</p> <p>Provider</p> <p>Available</p> <p>Website</p> <p>Brief description</p> <p>Main Benefits</p> <p>Customer Suitability</p>	<p>Data Synchronisation</p> <p>Non-specific</p> <p>GlobalBizpro Turbo Post</p> <p>GlobalBizpro Ltd</p> <p>Australia & New Zealand</p> <p>http://www.globalbizpro.co.nz/developments/default.aspx</p> <p>Imports & displays bank statements for instant processing of the transactions into MYOB EXO Business — all in one screen</p> <ul style="list-style-type: none"> • Avoid the need to manually process new transactions as they arrive on the bank statement, now processed in seconds in one screen, with a few clicks • Simply click & approve to have Turbo Post automatically create an invoice to correspond to the bank statement entry, - saves bulk data entry time • Saves the user the time consuming process of punching data in each EXO screen— select the module, customer or GL account and it's all done for you • Where the debtor or creditor name exists in the statement line, Turbo Post recognises and selects the correct record from the ledger and processes the transaction against that entity <p>For businesses that need to process multiple bank transactions from bank statements</p>	 <p>GlobalBizpro <small>Better software. Better business.</small></p>
