

MYOB Exo Business

For Businesses with more complex accounting needs

MYOB Exo Business is Australia's leading financial and business management system - designed for medium and larger businesses that need company-wide insight and comprehensive control.

Exo Business is a fully integrated, flexible and customisable business management system designed specifically for medium and larger businesses.

Exo Finance is the core module within Exo Business and is a powerful business accounting and distribution management solution. It provides complete visibility across your entire organisation assisting you to make educated, timely decisions essential to the success of your business.

Exo Finance enables you to effectively manage your business processes, data, staff, customers and suppliers in an efficient and organised manner.

MYOB Exo is perfect for business that need:

- + Easy accounting and GL function
- + Multiple locations/divisions/branches
- + Management dashboards
- + Customer relationship management
- + Advanced stock and foreign currency management
- + Extensive landed cost and shipment tracking
- + Integrated job and project costing functionality
- + Payroll, time and attendance and HR management
- + Consolidation of financial transactions for all entities
- + Customisable accounting process flows and checklists

MYOB Exo provides the flexibility to build an entire business management solution to meet all of your business needs.

A complete view of the business

Extensive reporting and configurable dashboards mean you can have a single view of all your key business information, along with the ability to drill down to more detail when you need to. Having this 'big picture' information will enable you to make quick and informed business decisions.

More than just an accounting solution

Exo Business has extensive features for handling importing, exporting and foreign exchange. Exo Job Costing accurately reflects the true cost of jobs, from quoting through to supply. And Exo CRM integrates with accounting and finance data, so you can develop better sales processes, increase efficiencies and improve your bottom line.

A system that grows with your business

Exo Business is configurable, so it can be extended to meet your own unique business process requirements. This ability to grow and transform with your business will improve processes and operational efficiencies across all departments. You even have flexibility in how you host MYOB Exo – on premise, or in the cloud. The choice is yours.
